About Us

AdVitum Healthcare “Built on Trust. Dedicated to Life.”

AdVitum Healthcare is a premium Indian exporter of pharmaceutical and surgical products, trusted by healthcare professionals worldwide for safety, reliability, and global-standard quality.

The name “AdVitum” (Latin: For Life) reflects our mission to protect, enhance, and support life through high-quality products and ethical partnerships.

All our products are manufactured in ISO, CE, and WHO-GMP certified facilities, ensuring strict compliance, superior performance, and consistency in every shipment.

At AdVitum Healthcare, trust is our foundation and excellence is our identity. Our commitment to innovation, customer satisfaction, and global best practices has positioned us as a dependable partner in healthcare exports.

Our Core Values

- Trust** : Strong relationships built on reliability.
- Quality** : Products that meet international healthcare standards.
- Integrity** : Ethical and responsible business conduct.
- Innovation** : Modern, safe, and efficient solutions.
- Excellence** : Always aiming beyond expectations.

Our Vision

To establish AdVitum Healthcare as a globally trusted brand “For Life”, known for quality, compassion, and professionalism delivering healthcare solutions that make the world healthier and safer.

Why Choose Us

- ✓ 100% Sterile and Safe Products
- ✓ ISO 13485 & CE Certified Range
- ✓ Advanced Manufacturing & Testing
- ✓ Private Label / Custom Packaging
- ✓ Strong Global Export Expertise
- ✓ Responsive Customer Support

Quality Assurance

Quality is at the heart of everything we do. Every product undergoes rigorous testing from raw materials to final packaging.

● Quality Highlights:

- ISO 13485:2016 Certified System
- EO Gas Sterilization
- 100% Leak & Function Testing
- Batch-wise Traceability
- WHO-GMP & CE Compliance

Manufacturing Infrastructure

Our modern manufacturing setup includes cleanroom environments, automated assembly lines, and advanced testing equipment. Skilled professionals ensure every product meets global standards.

● Key Facilities:

- Class 1,00,000 Cleanroom
- EO Sterilization Units
- Automatic Printing & Packing Lines
- In-house Moulding & Tooling
- Fully Equipped QC Laboratory

Certifications

- ✓ ISO 13485:2016
- ✓ CE Marked Products
- ✓ WHO-GMP Certified
- ✓ Drug Manufacturing License
- ✓ Free Sale Certificate (FSC)

● Our Promise:

- Full Batch Traceability
- OEM / Private Label Support
- Export-Quality Packaging
- Timely Delivery
- Global Customer Assistance

● Global Supply Commitment

At AdVitam Healthcare, we are dedicated to delivering consistent quality, competitive pricing, and dependable logistics worldwide. Our commitment to customer satisfaction and long-term partnerships ensures we meet the highest expectations in the global healthcare industry.

If you require any medical or surgical products beyond those listed, AdVitam Healthcare is ready to source and supply them globally with assured quality and timely delivery.

A. Injection & Infusion Therapy Devices

1. Disposable Syringes (2-Part / 3-Part / Luer Slip / Luer Lock)

Available Variants:

- 2-Part / 3-Part
- Luer Slip / Luer Lock
- Sizes: 1 ml, 2 ml, 5 ml, 10 ml, 20 ml, 50 ml
- With / Without Needle

- Medical-grade polypropylene syringe with clear barrel and smooth plunger movement.
- Available sizes: 1ml to 50ml, sterile and individually packed.
- Used for safe and accurate administration of medicines or fluids.

2. Hypodermic Needles (Various Gauges & Lengths)

Available Variants:

- Gauge: 18G – 30G
- Length: ½", 1", 1½"
- Hub Color Coded
- Sterile / Non-Sterile

- Stainless steel cannula with color-coded hubs for gauge identification.
- EO sterilized and compatible with all standard syringes.
- Used for injection and fluid aspiration.

3. IV Infusion Set (With / Without Air Vent)

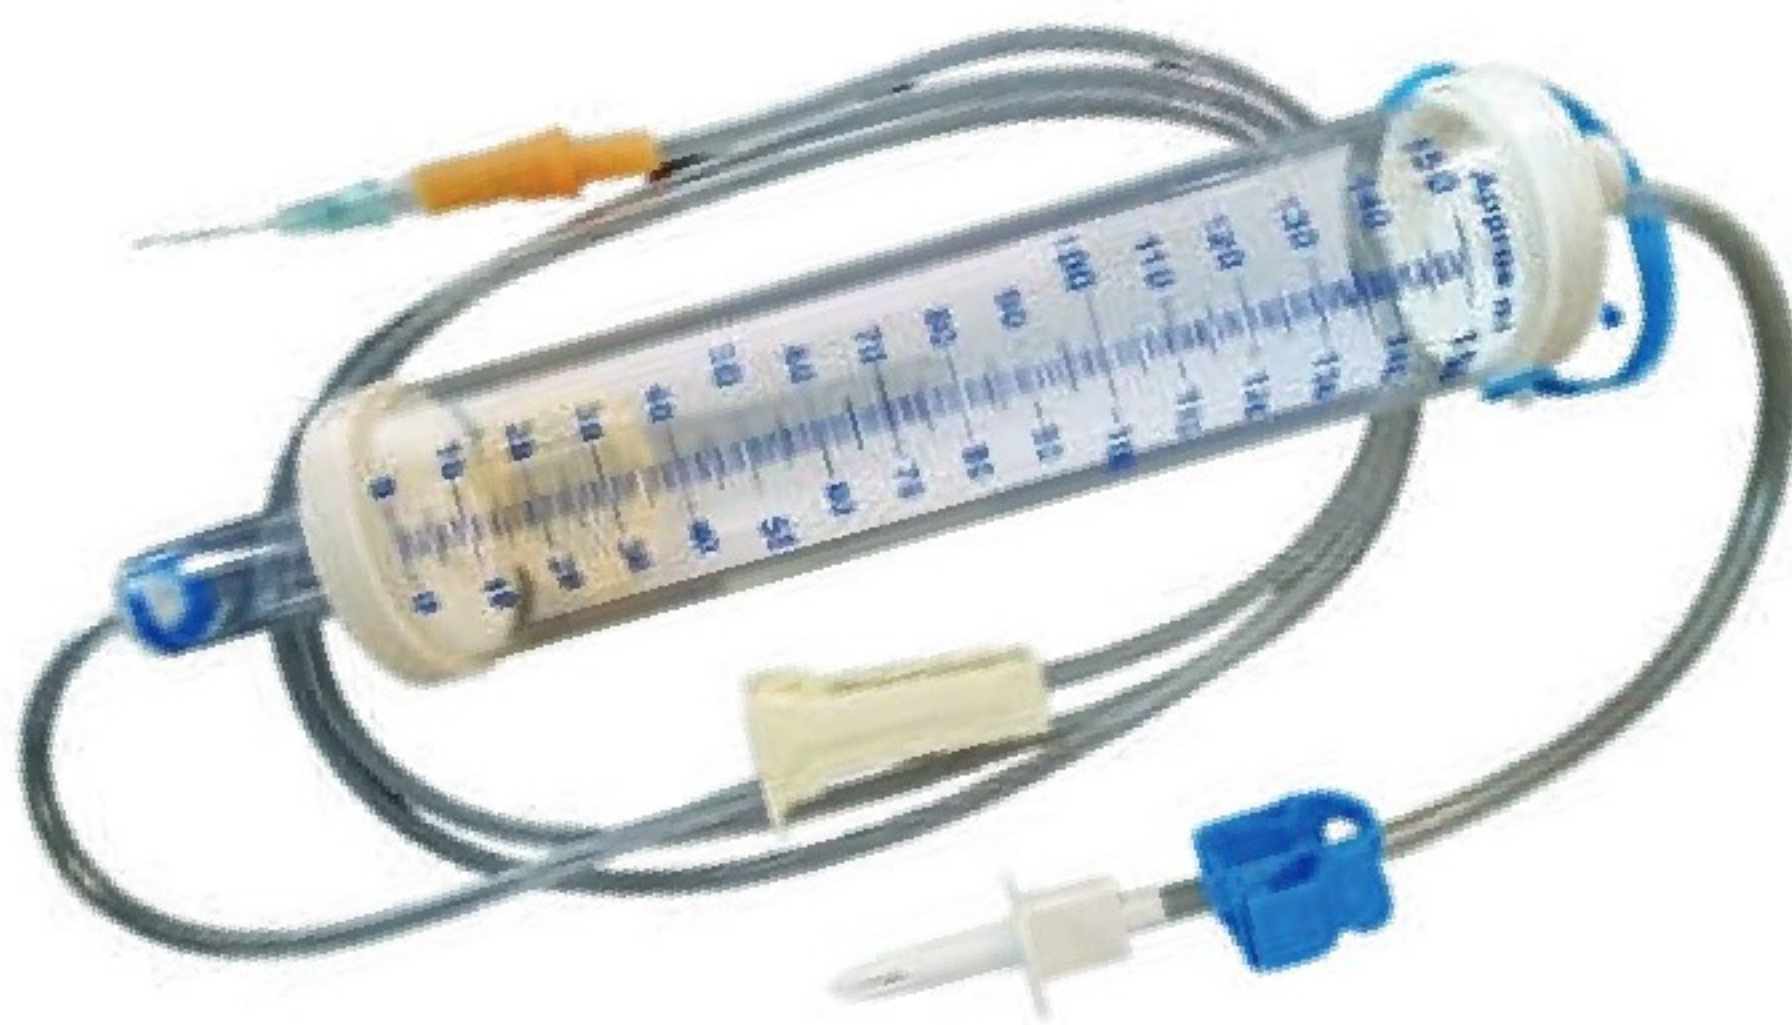

Available Variants:

- With Air Vent / Without Air Vent
- Latex Free Tube
- Luer Lock Connector
- Adult / Pediatric

- Non-toxic PVC tubing with drip chamber and roller clamp.
- Sterile, pyrogen-free, and ensures controlled IV flow.
- Used for infusion of fluids and drugs.

4. Measured Volume Infusion Set (M.V. Set)

Available Variants:

- Chamber Capacity: 100 ml / 150 ml
- With Burette / Without Burette
- Latex Free
- Pediatric Use

- 100ml/150ml calibrated burette chamber for precise fluid dosage.
- Air-vented spike and filter for contamination-free infusion.
- Used for pediatric and critical care patients.

5. Blood Transfusion Set (B.T. Set)

Available Variants:

- With Filter / Without Filter
- Single Spike / Double Spike
- Latex Free
- Sterile, Single Use

- Sterile, disposable set with blood filter and sharp vein needle.
- Flexible PVC tubing for smooth blood flow.
- Used for safe transfusion of blood and components.

6. Three Way Stop Cock (With / Without Extension Tube)

Available Variants:

- With Filter / Without Filter
- Single Spike / Double Spike
- Latex Free
- Sterile, Single Use

- Polycarbonate body with 360° rotating tap and secure connectors.
- Withstands high pressure and allows multiple fluid routes.
- Used for IV therapy and pressure monitoring.

7. Scalp Vein Set (Butterfly Set)

Available Variants:

- Gauge: 18G – 27G
- Winged Needle Design
- With / Without Luer Adapter
- Color Coded

- Winged needle with soft tubing for painless venipuncture.
- Available sizes: 18G–26G, sterile and disposable.
- Used for short-term infusion and blood collection.

8. Flow Regulator Set

Available Variants:

- Adjustable Flow Control
- Luer Lock Connector
- Universal Compatibility
- Latex Free

- Accurate dial for flow control without infusion pump.
- Transparent chamber for visual flow monitoring.
- Used for continuous IV fluid administration.

B. IV Access & Catheterization Products

1. IV Cannula (Peripheral Venous Catheter)

Available Variants:

- Gauge: 14G – 26G
- With Wings / Without Wings
- With Injection Port / Without Port
- Color Coded

- Made of PTFE / FEP with injection port and wings.
- Color-coded sizes, sterile and single-use.
- Used for continuous or intermittent IV therapy.

2. Foley Balloon Catheter (2-Way / 3-Way)

Available Variants:

- 2-Way / 3-Way
- Size: 8Fr – 24Fr
- Balloon Capacity: 5 ml / 10 ml / 30 ml
- Latex / Silicone

- Latex or silicone catheter with smooth rounded tip.
- Sterile, available in 6Fr–26Fr sizes.
- Used for urinary drainage and irrigation.

3. Suction Catheter (With / Without Control)

Available Variants:

- With Air Vent / Without Air Vent
- Latex Free Tube
- Luer Lock Connector
- Adult / Pediatric

- Flexible PVC tubing with smooth tip and control port.
- EO sterilized and disposable.
- Used for airway secretion suction.

4. Urine Collection Bag (Adult / Pediatric)

Available Variants:

- Chamber Capacity: 100 ml / 150 ml
- With Burette / Without Burette
- Latex Free
- Pediatric Use

- 1000ml–2000ml PVC bag with anti-reflux valve and outlet.
- Sterile, leak-proof, with hanger and tube.
- Used for hygienic urine collection.

5. Urometer Set

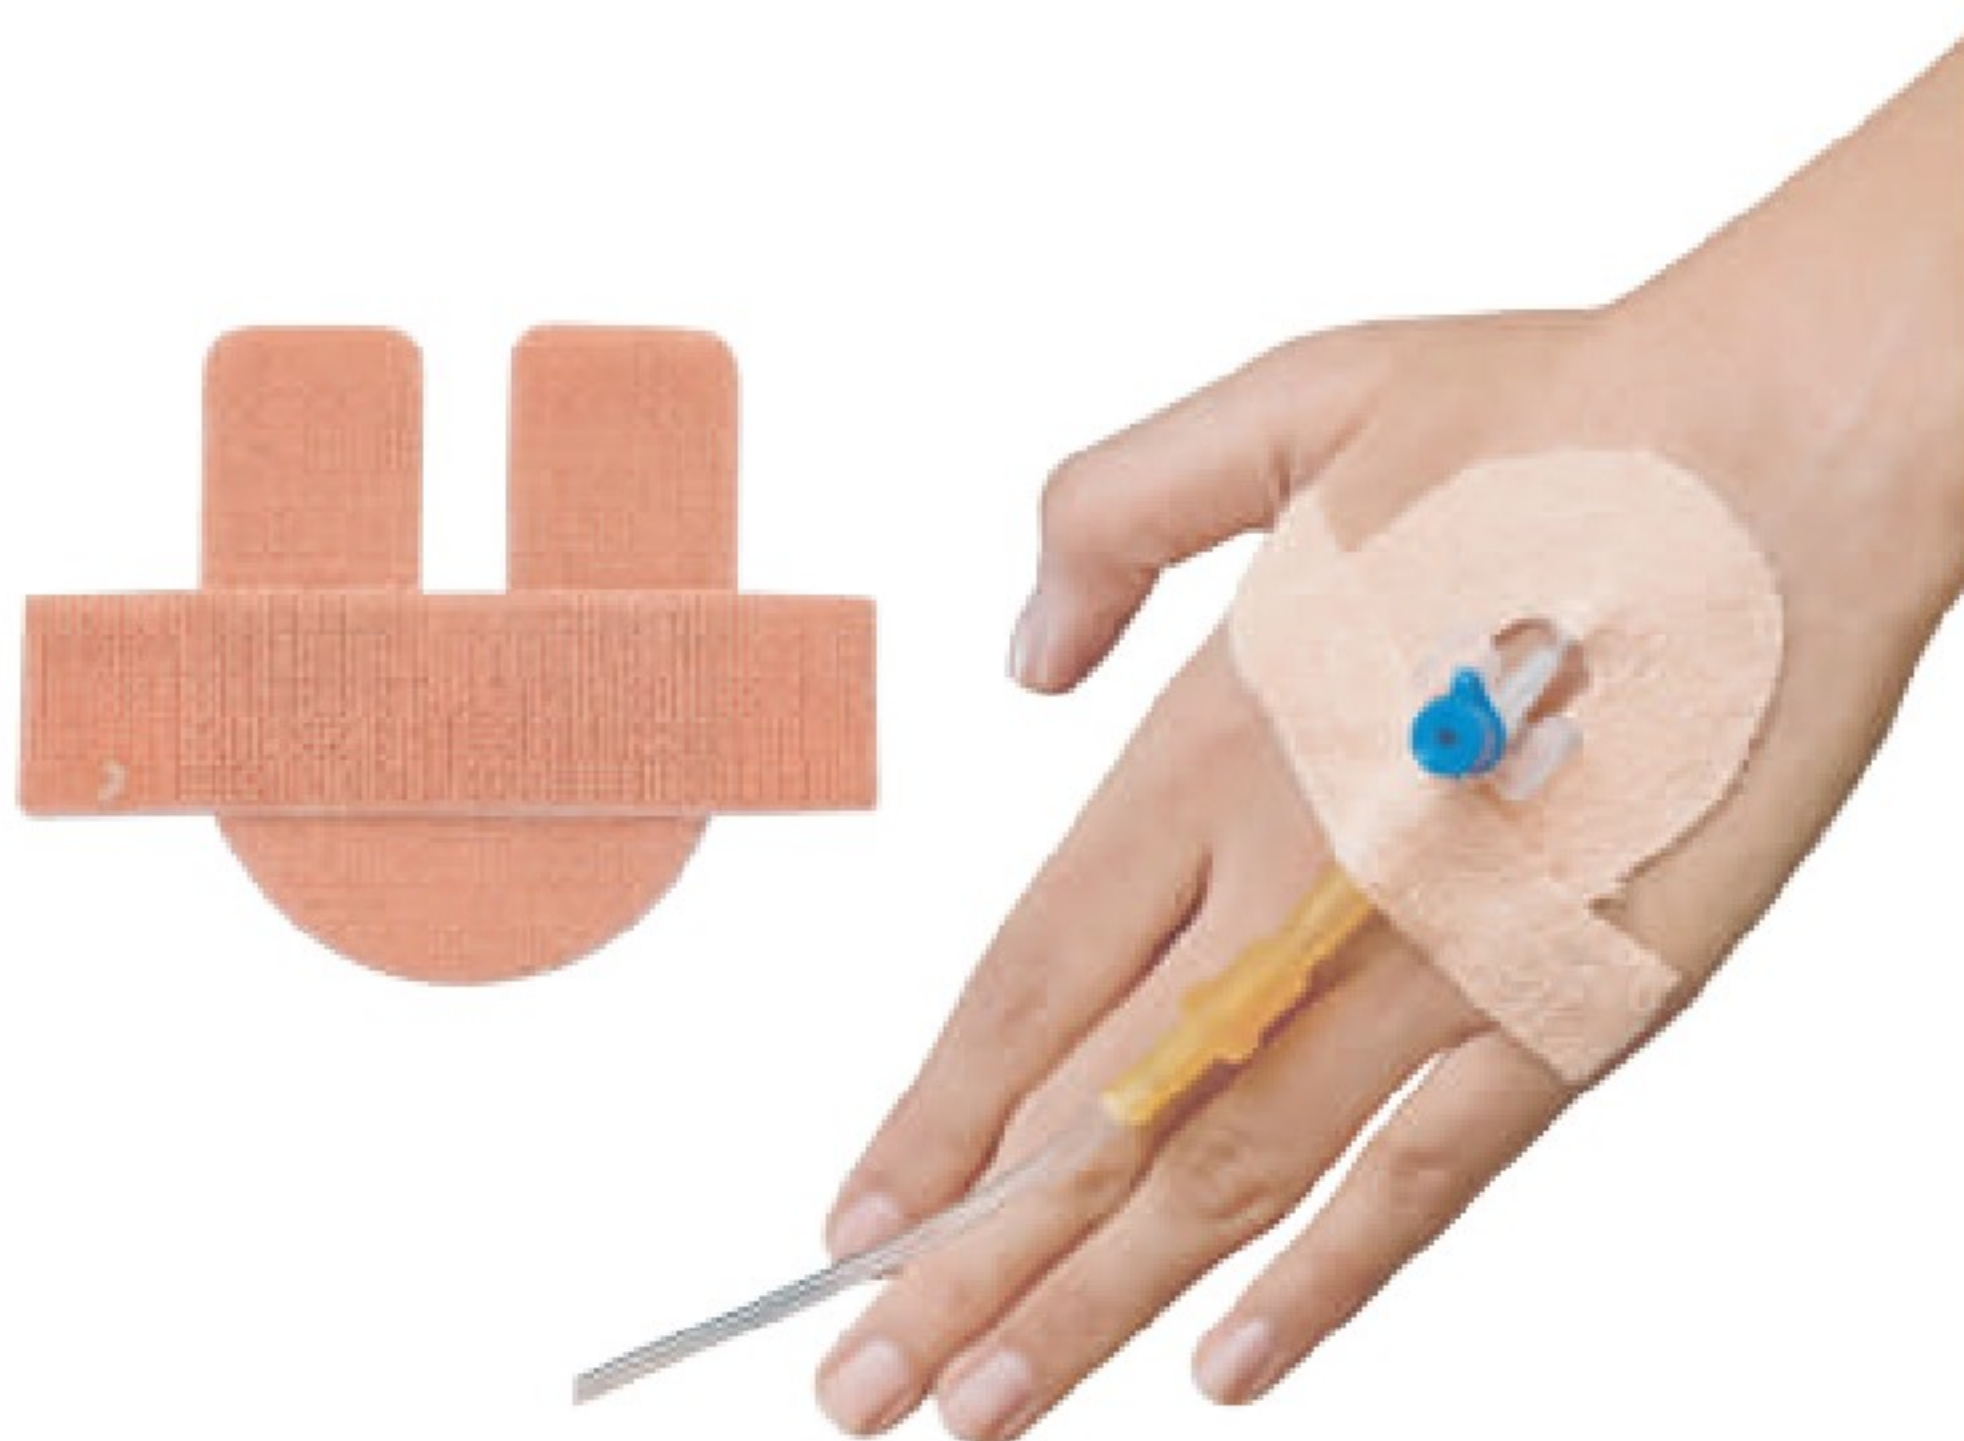

Available Variants:

- With Air Vent / Without Air Vent
- Latex Free Tube
- Luer Lock Connector
- Adult / Pediatric

- Graduated chamber with anti-reflux valve and drain port.
- Sterile, disposable and accurate for output measurement.
- Used for ICU and post-operative urine monitoring.

6. IV Cannula Fixator

Available Variants:

- Chamber Capacity: 100 ml / 150 ml
- With Burette / Without Burette
- Latex Free
- Pediatric Use

- Soft foam or non-woven adhesive base with gentle grip.
- Hypoallergenic and breathable.
- Used for secure IV line fixation.

7. Umbilical Catheter

Available Variants:

- Size: 3.5Fr – 8Fr
- Radio-Opaque Line
- Single / Double Lumen
- Sterile

- Soft PVC tube with open or closed tip and depth marking.
- EO sterilized, single-use product.
- Used for neonatal arterial or venous access.

C. Surgical & Wound Care Products

1. Surgical Gloves (Latex / Nitrile / Sterile / Non-Sterile)

Available Variants:

- Latex / Nitrile
- Sterile / Non-Sterile
- Powdered / Powder Free
- Sizes: 6.0 – 8.5

- Made from natural rubber latex or nitrile, textured for better grip.
- Powdered / powder-free, sterile or non-sterile.
- Used for protection during surgical procedures.

2. Examination Gloves (Latex / Nitrile / Vinyl)

Available Variants:

- Latex / Nitrile / Vinyl
- Powder Free
- Ambidextrous
- Sizes: S / M / L / XL

- Ambidextrous, non-sterile gloves for general use.
- Smooth finish for easy donning and comfort.
- Used for medical and laboratory applications.

3. Disposable Gowns & Drapes

Available Variants:

- Sterile / Non-Sterile
- SMS / Non-Woven Fabric
- Standard / Reinforced
- Custom Sizes Available

- Made from SMS / spunbond non-woven fabric.
- Sterile and fluid-resistant.
- Used for infection control in operation theatres.

4. Adhesive Plaster / Micropore Tape

Available Variants:

- Width: 1", 2", 3"
- Hypoallergenic
- Breathable
- White / Skin Color

- Hypoallergenic, breathable adhesive tape.
- Gentle on skin and strong fixation.
- Used for securing dressings and tubing.

5. Gauze Swabs / Bandages / Cotton Roll

Available Variants:

- Sterile / Non-Sterile
- Sizes: Multiple Options
- Absorbent Cotton
- Medical Grade

- 100% bleached cotton, highly absorbent.
- Sterile or non-sterile, packed in multiple sizes.
- Used for dressing and wound care.

6. Strapping / Crepe Bandage / POP

Available Variants:

- Width: 1", 2", 3"
- Hypoallergenic
- Breathable
- White / Skin Color

- Elastic and breathable fabric for firm support.
- Washable and available in various widths.
- Used for compression, injury support, and fractures.

7. Theatre Gowns

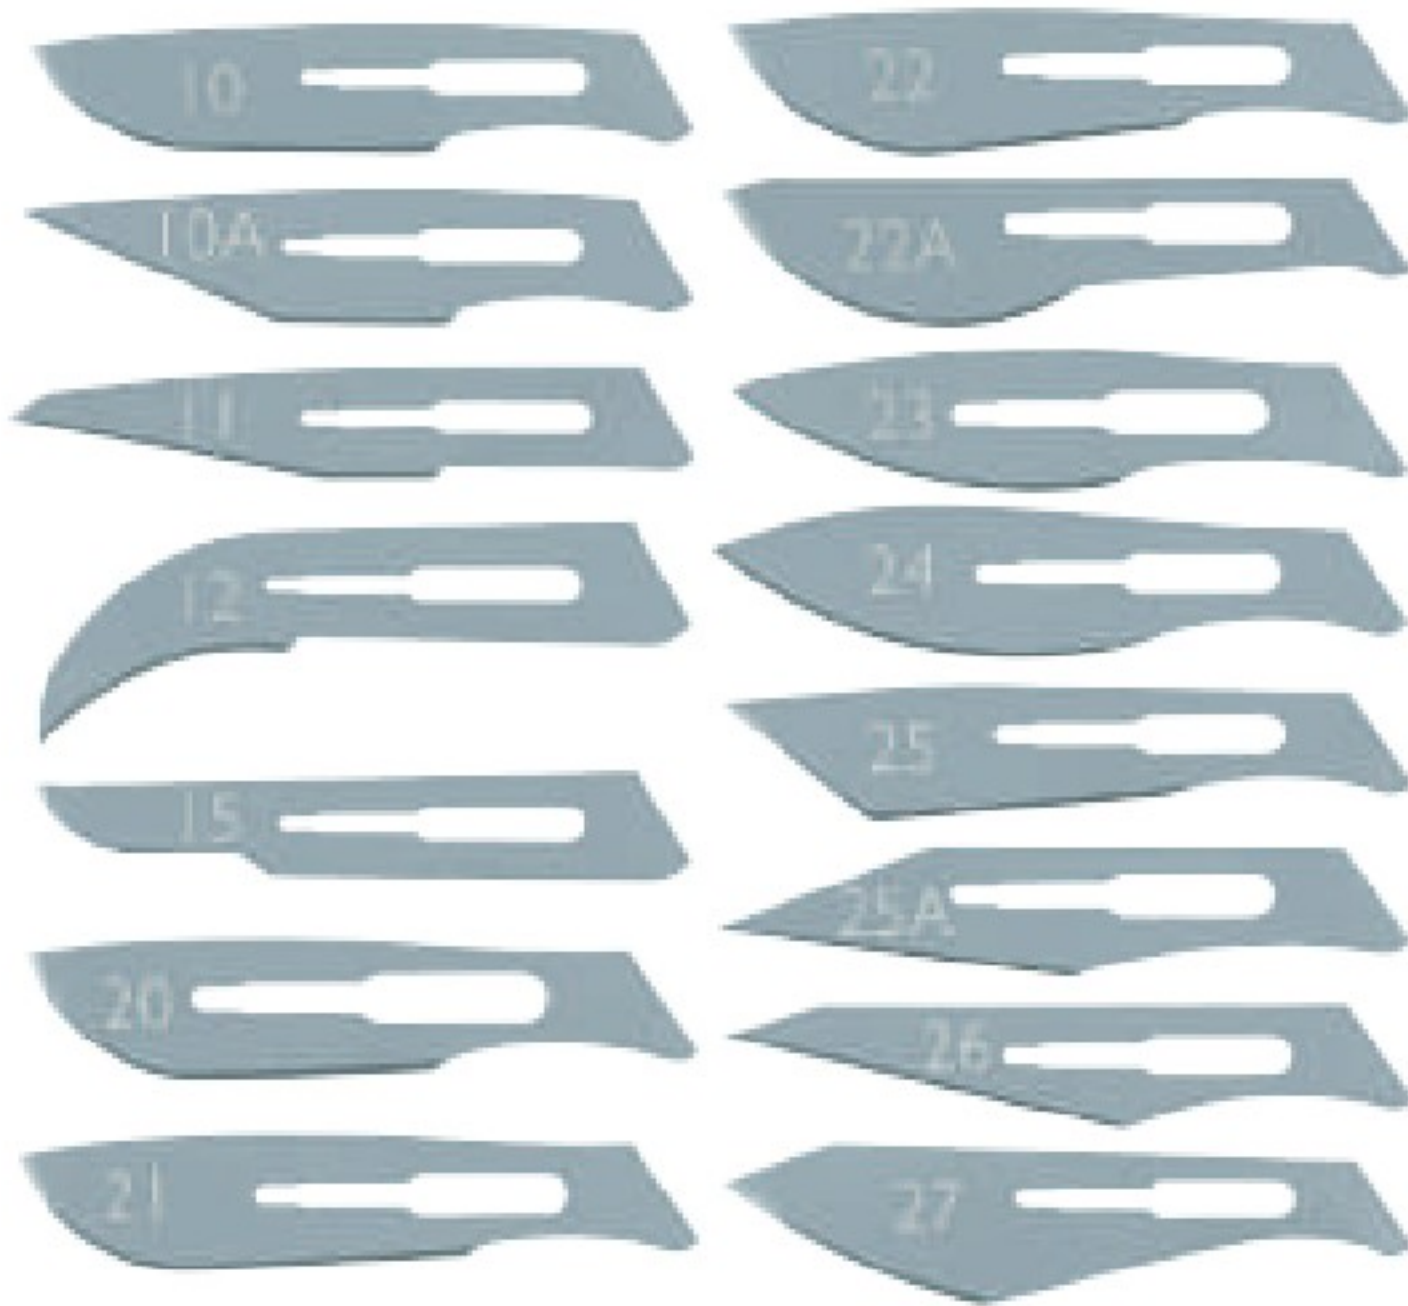

Available Variants:

- Sterile / Non-Sterile
- Sizes: Multiple Options
- Absorbent Cotton
- Medical Grade

- Non-woven or cotton, fluid-repellent and comfortable.
- Sterile with adjustable ties.
- Used by surgical staff in sterile environments.

8. Surgical Blades (All Sizes)

Available Variants:

- Sizes: 10 – 24
- Carbon Steel / Stainless Steel
- Individually Packed
- Sterile

- Precision-ground stainless-steel blades, sterile.
- Compatible with standard handles (#3/#4).
- Used for surgical incisions.

9. Sutures (All Types)

Available Variants:

- Absorbable / Non-Absorbable
- Braided / Monofilament
- With Needle / Without Needle
- USP Sizes Available

- Absorbable / non-absorbable, USP / EP standard.
- Sterile with attached surgical needles.
- Used for wound closure and stitching.

D. Anesthesia & Respiratory Care Products

1. Oxygen Mask (Adult / Pediatric)

Available Variants:

- Adult / Pediatric
- With Reservoir Bag / Without Bag
- Adjustable Nose Clip
- Latex Free

- Soft clear PVC mask with elastic strap and tubing.
- Sterile, single-use.
- Used for oxygen administration.

2. Nebulizer Mask

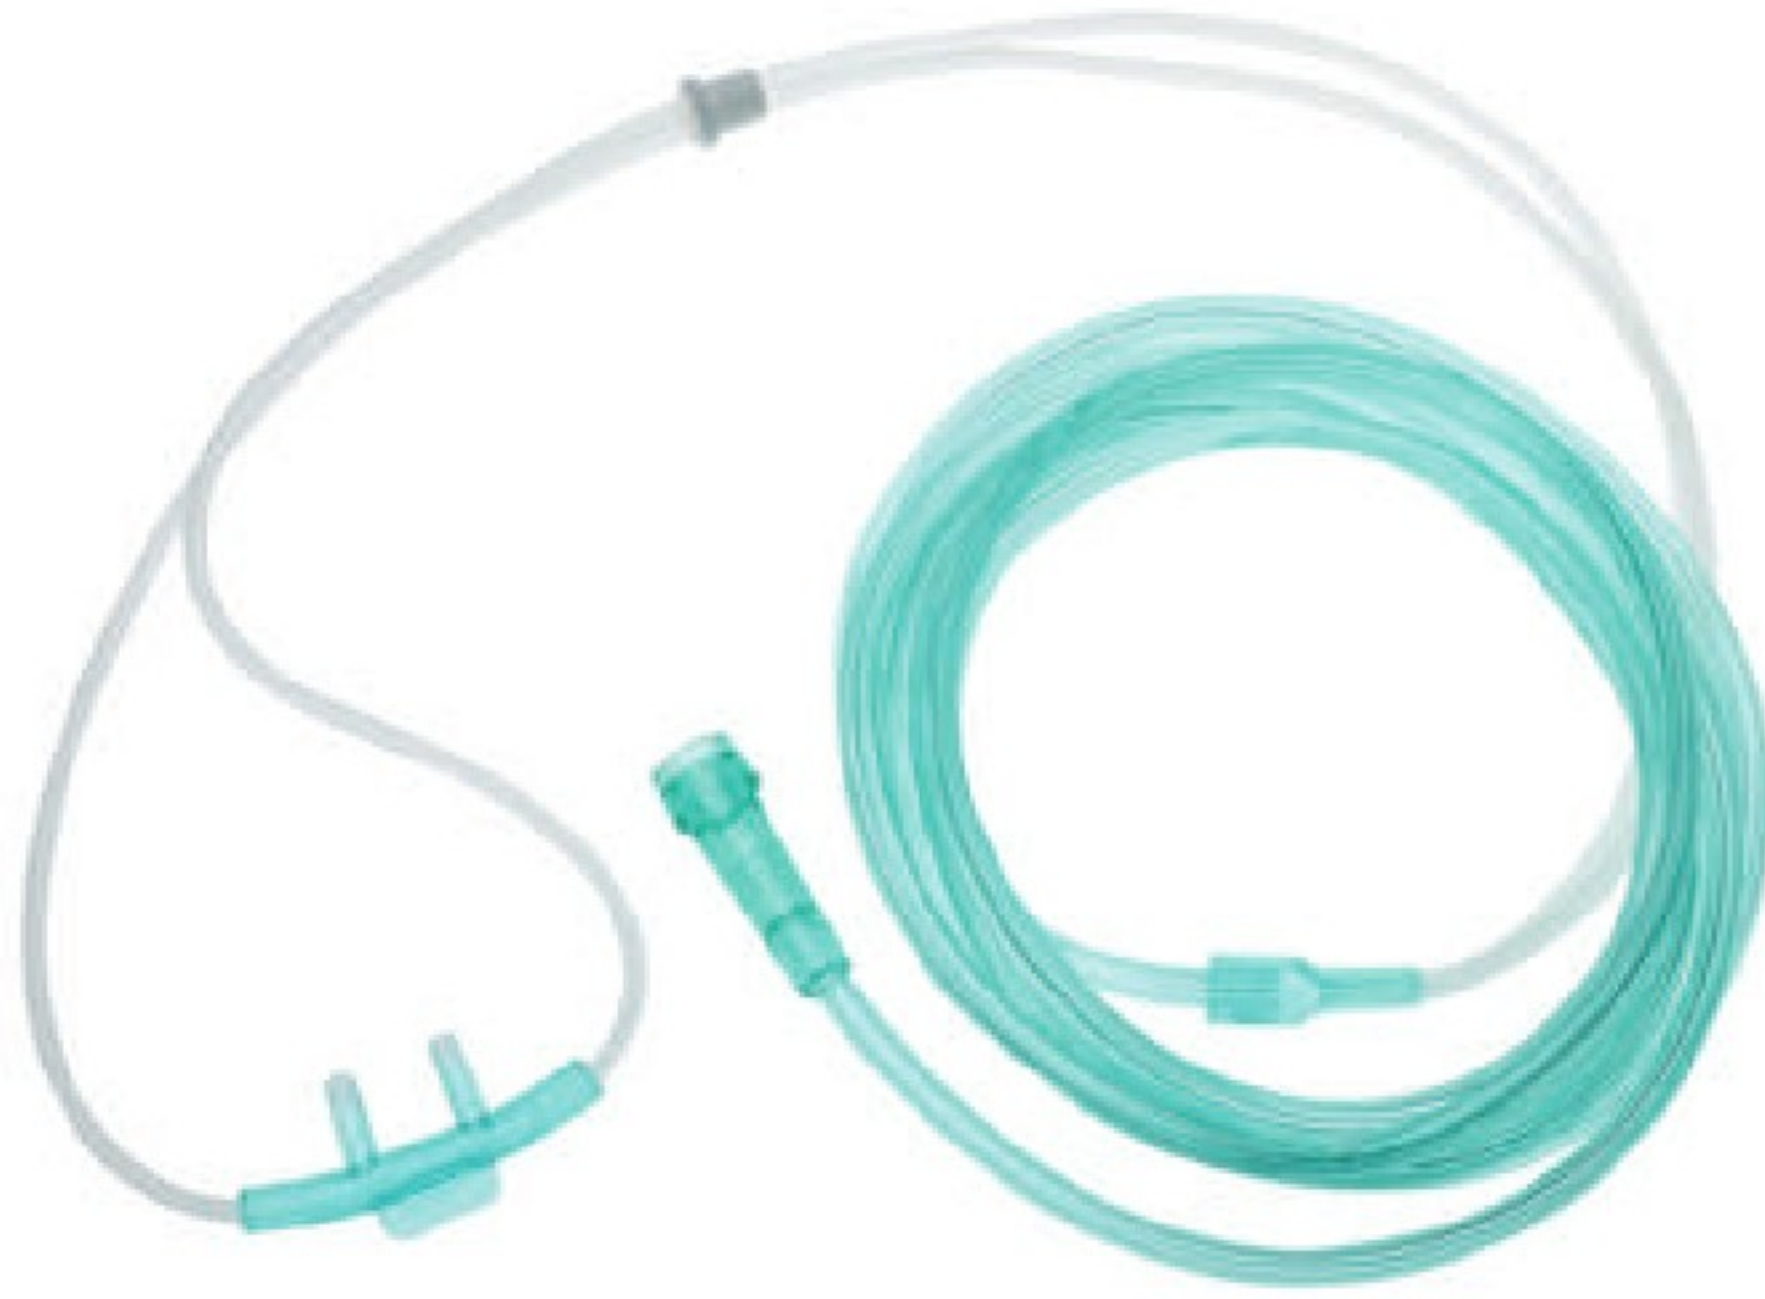

Available Variants:

- Adult / Pediatric
- With Nebulizer Chamber
- Soft PVC Mask
- Latex Free

- Soft mask with nebulization chamber and tube.
- Ensures effective medication delivery.
- Used in asthma and respiratory therapy.

3. Nasal Cannula

Available Variants:

- Adult / Pediatric
- Length: 2 m
- Soft Prongs
- Latex Free

- Twin prong soft tubing for comfort.
- Available in 2m / 2.5m lengths.
- Used for low-flow oxygen therapy.

4. Oxygen Extension Tube

Available Variants:

- Length: 2 m / 5 m
- Universal Connector
- Kink Resistant
- Latex Free

- Medical-grade PVC tubing with universal connectors.
- Kink-resistant and transparent.
- Used to extend oxygen supply lines.

E. Diagnostics & Laboratory Consumables

1. Urine Collection Container

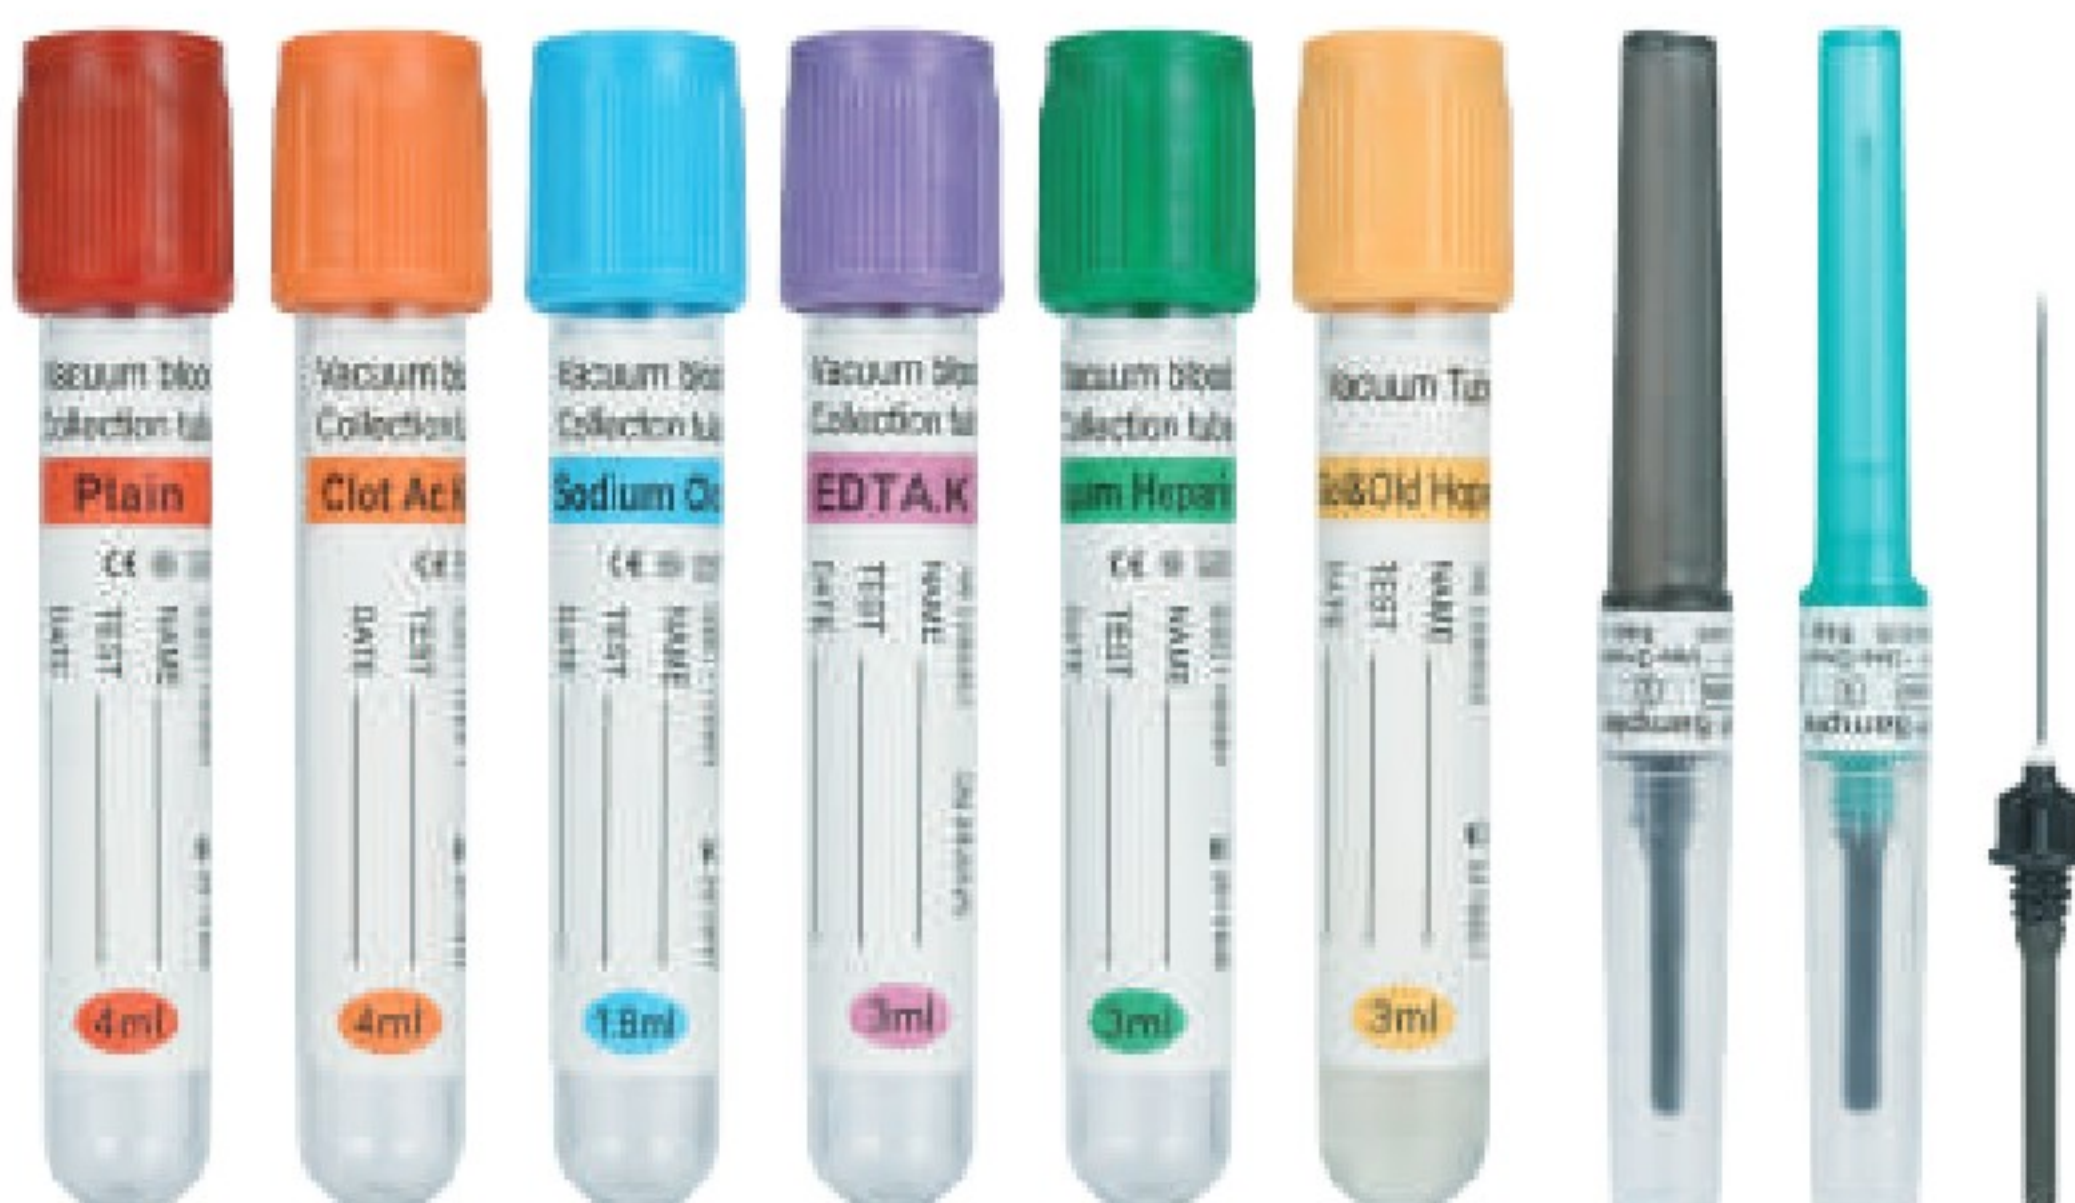

Available Variants:

- Capacity: 30 ml / 60 ml / 100 ml
- With / Without Screw Cap
- Sterile / Non-Sterile

- Sterile, leak-proof container with screw cap.
- Graduated for volume measurement.
- Used for urine sample collection.

2. Blood Collection Tubes & Needles

Available Variants:

- EDTA / Plain / Citrate / Gel
- Vacuum / Non-Vacuum
- Color Coded Caps

- Vacuum tubes: Plain, EDTA, Clot Activator, Fluoride.
- Color-coded caps, sterile and accurate.
- Used for blood sample collection and testing.

3. Specimen Container

Available Variants:

- Width: 1", 2", 3"
- Hypoallergenic
- Breathable
- White / Skin Color

- Transparent, unbreakable, sterile container.
- Label space for easy identification.
- Used for biological specimen collection.

4. Alcohol Swab

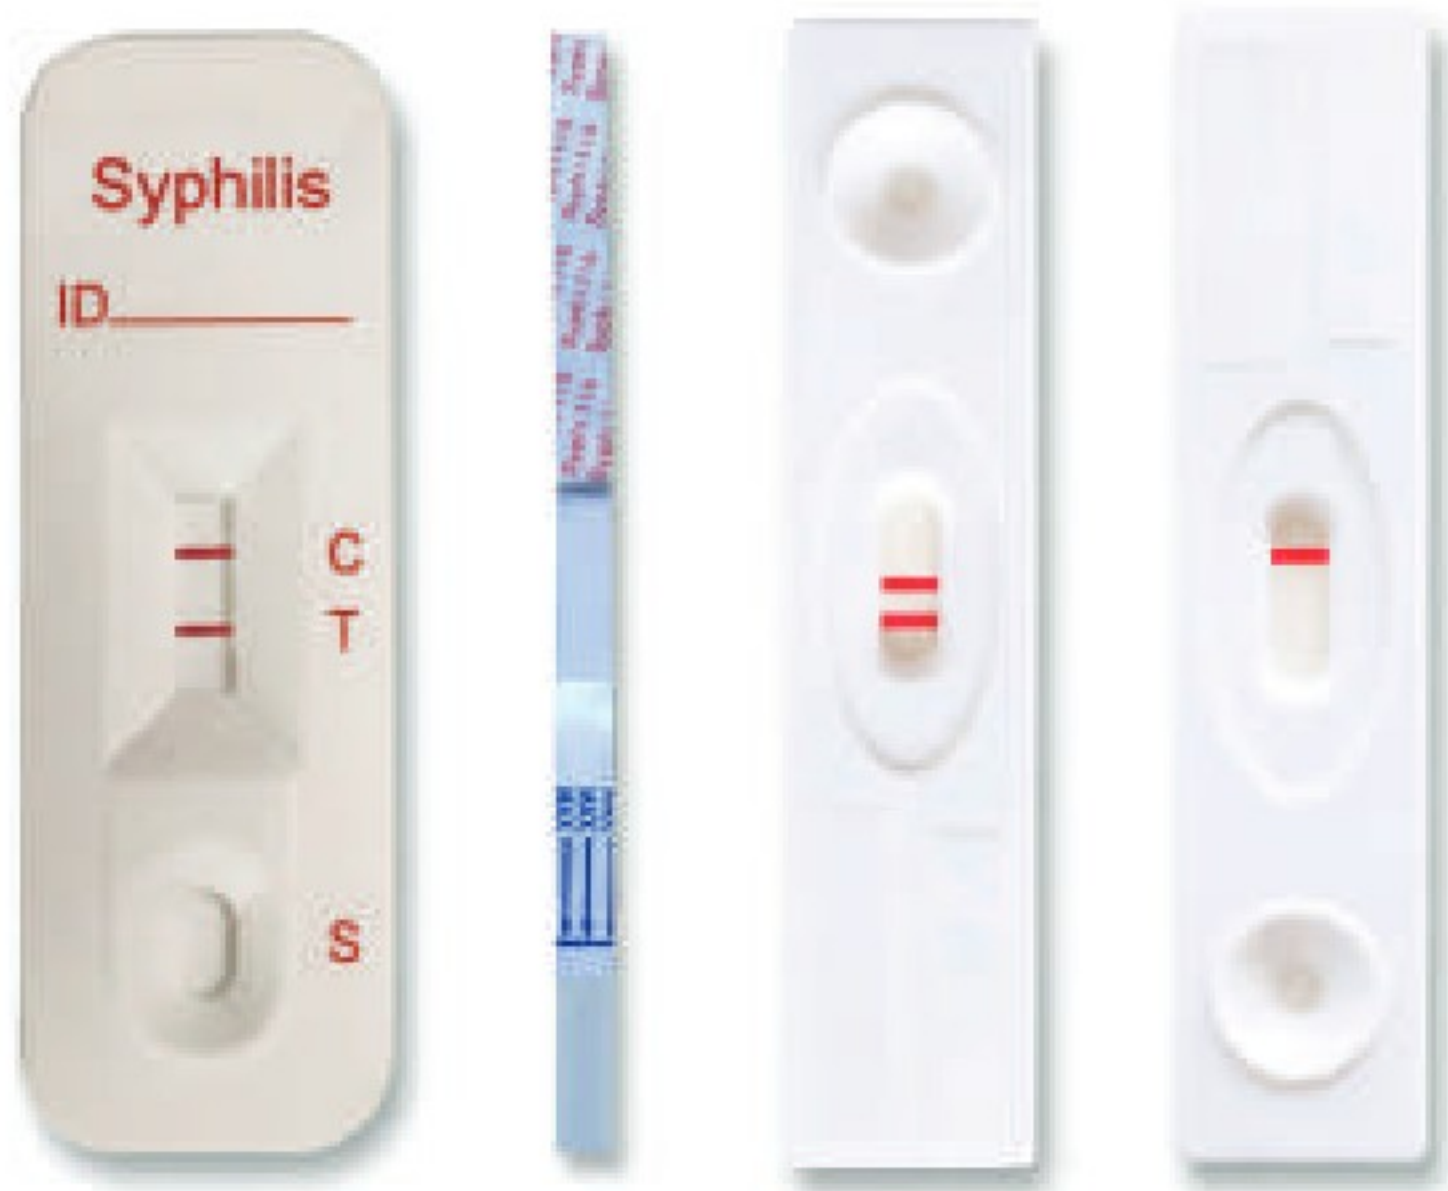

Available Variants:

- Sterile / Non-Sterile
- Sizes: Multiple Options
- Absorbent Cotton
- Medical Grade

- 70% isopropyl alcohol pad in sealed pack.
- Fast-drying and antiseptic.
- Used for pre-injection disinfection.

5. Syphilis Test Strips / Pregnancy Test Kit

Available Variants:

- Rapid Test Format
- Cassette / Strip
- High Sensitivity

- Rapid diagnostic test with visual result lines.
- Easy to use, accurate within minutes.
- Used for quick detection of infection or pregnancy.

6. Methylated Spirit (2.5L / Custom Pack)

Available Variants:

- Pack Size: 2.5 L / Custom Pack
- Medical Grade
- Bulk Supply Available

- Ethanol-based clear antiseptic solution.
- Supplied in 2.5L bottles or as per demand.
- Used for disinfection and cleaning.

7. Frosted Slides

Available Variants:

- Plain / Frosted
- Standard Size
- Pre-Cleaned

- Glass slides with frosted labeling end.
- Pre-cleaned, smooth-edged and break-resistant.
- Used for microscopic lab examinations.

8. Digital BP Machine

Available Variants:

- Arm / Wrist Type
- Adult / Pediatric Cuff
- LCD Display
- Battery / Adapter Operated

- Fully automatic with LCD display.
- One-touch operation, memory storage.
- Used for accurate blood pressure monitoring.

Custom Product Sourcing

“

“This catalogue showcases our core product range. For any additional medical or surgical items, feel free to contact us we are fully equipped to source and supply products as per your requirements with assured quality.”

”
